

WELCOME TO EPA!

Your National Psychiatric Association has recently become a full member of the European Psychiatric Association (EPA), which transformed itself into an association of both Individual Members and National Society/Association Members through a change of its Statutes at the EPA Extraordinary General Assembly held during the 20th European Congress of Psychiatry in Prague, Czech Republic, on 4 March 2012.

This change will open enormous opportunities for greater influence of psychiatrists on European mental health policies, better quality of psychiatric care and services, development of joint research and educational projects, and further harmonisation of psychiatric practices in Europe.

Furthermore, as a result of this process, the members of the National Psychiatric Associations that are National Society/Association Members of the EPA are now considered as Affiliate Members of the EPA. This gives you a right to benefit from some EPA advantages at no fee. We explicitly hope that you are supporting the whole process and will enjoy your experience with EPA!

Patrice Boyer, EPA President
