

Web based survey

PART 1: About you

1.- Speciality	Psychiatrist	
	Neurologist	
	General Practitioner	
	Other	

2.- Tick the box that corresponds most with your work setting

Community health center	
Hospital	
Private practice	
Psychiatric hospital	
University	
Other	

3.- Years of experience	< 5 years	
	5-10 years	
	10-15 years	
	15-20 years	
	> 20 years	

4.- Geographical location

- List of countries will be provided here

PART 2: Treatment of Neuropsychiatric Disorders

5.- Question conditioned to answer in Q1

5a.- Please indicate how often do you see patients with the following diseases: (Psychiatrists)

	Frequency			
	Never	< 5 times a month	5-10 times a month	> 10 times a month
Schizophrenia Spectrum and Other Psychotic Disorders				
Bipolar and Related Disorders				
Depressive Disorders				
Anxiety Disorders				
Substance-Related and Addictive Disorders				
Neurocognitive Disorders				

5b.- Please indicate how often do you see patients with the following diseases: (Neurologists)

	Frequency			
	Never	< 5 times a month	5-10 times a month	> 10 times a month
Neuroinflammatory Disorders				
Neurocognitive Disorders				
Neurodegenerative Disorders				
Neurovascular Disorders				

5c.- Please indicate how often do you see patients with the following diseases: (GPs and others)

	Frequency			
	Never	< 5 times a month	5-10 times a month	> 10 times a month
Schizophrenia Spectrum and Other Psychotic Disorders				
Bipolar and Related Disorders				
Depressive Disorders				
Anxiety Disorders				
Substance-Related and Addictive Disorders				
Neurocognitive Disorders				
Neuroinflammatory Disorders				
Neurodegenerative Disorders				
Neurovascular Disorders				

PART 3: Challenges in Treating Neuropsychiatric Disorders

6.- Conditioned to answer in Q5, questions only for those disorders treated more than "never"

6.- Please select the three most challenging areas when treating?:

Accessibility to health system
Screening and Diagnosis
Integrated care
Comorbidities
Access to pharmacological treatment
Access to non-pharmacological treatment
Adherence to treatment
Side effects & complications
Chronicity
Stigma
Suicide
Lack of resources
Patient communication
Other

PART 4: Preferences for Continuous Medical Education

7.- What is the main reason for you taking part in continuing medical education ?

Personal interest in the topic	
Achievement of new knowledge to improve practice	
Need of CME credits for licence maintenance	
Improve chances for a promotion	
Others	
I don't take part of CME	

8.- Conditioned to answer in Q7 "I don't take part of CME"

8.- Please select the main reason for not taking part in CME initiatives?

Lack of financial support	
Difficulties to take part in CME during working hours	
Difficulties to take part in CME outside working hours	
Lack of information about CME initiatives	
Personal reasons	
Others	

9.- Did you attend any CME course in the past year?

Yes	
No	

10.- In order to attend a specific educational activity, do you need that activity to be officially CME accredited?

Yes	
No	

11.- How important are the following factors for you seeking a specific training?

	Not at all important	Little important	Moderate important	Very important	Most important
Encouragement to attend by manager/colleagues					
Location and form of training					
Cost of training					
Trainer's expertise in the field					
Content of training					
Length of training					

12.- What is the main source for you identifying relevant CME opportunities?

Advertisements in professional publications	
Direct information from CME providers	
Web searches	
Information from colleagues	
Others	

13.- In general, what is your prefer modality for CME?

On-site (face to face)	
On-line	
A combination	

14.- Please select your three preferred types of CME activities

Interactive face to face seminars/workshops	Mobile applications	
Visiting speaker programs	Secondment to another setting	
Conferences	Visiting examples of "good practice"	
One to one meetings	Distance learning	
Case discussions and simulations	Teleconferences (video/ audio/ webcast)	
Train the trainer events	Professional network events	
Written publications	Other	

PART 4: Needs for Continuing Medical Education

15.- In which area do you find training more needed?

Schizophrenia Spectrum and Other Psychotic Disorders	
Bipolar and Related Disorders	
Depressive Disorders	
Anxiety Disorders	
Substance-Related and Addictive Disorders	
Neurocognitive Disorders	
Neuroinflammatory Disorders	
Neurodegenerative Disorders	
Neurovascular Disorders	

16.- Within that area, which three topics describe best your CME needs/ wishes?

Neurobiology	
Screening and Diagnosis	
Management of the disease	
Integrated care	
Comorbidities in	
Pharmacological treatments	
Non-pharma treatments	
Adherence to treatment	
Chronicity	
Stigma	
Suicide	
Unmet needs and latest developments	
Patient communication	
Other	

17.- Do you find any of the following general topics interesting for improving the treatment of neuropsychiatric disorders?

	Not at all	Somewhat interesting	Very interesting	Most interesting
Basic research				
Clinical interviewing				
Coaching skills				
Communication skills				
Health economy				
Management skills				
New technologies				
Research methodology				
Statistics				
Teaching skills
